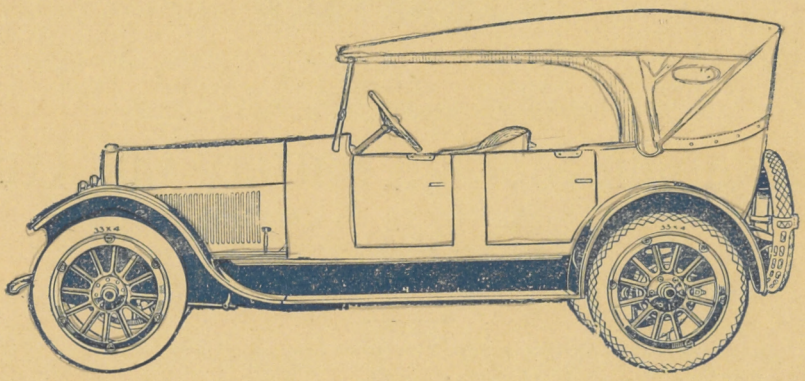
McLaughlin



Confidence in "Canada's Standard Car" is most clearly shown in its absolute leadership in the market. McLaughlin "Master Six" has become the "known factor" among motor cars—a guage by which to judge not only values, but style, finish and design.

This is what makes the McLaughlin such a sound investment — that gives it its established re-sale value—that makes it the accepted car among men of substance.

Coupled with the same power and dependability that have made McLaughlin Master Six motor cars famous throughout Canada, is added riding comfort, more roominess and better seating arrangement, easier control and a beauty and grace that fittingly express the higher standard of 1921 models of "Canada's Standard Car."

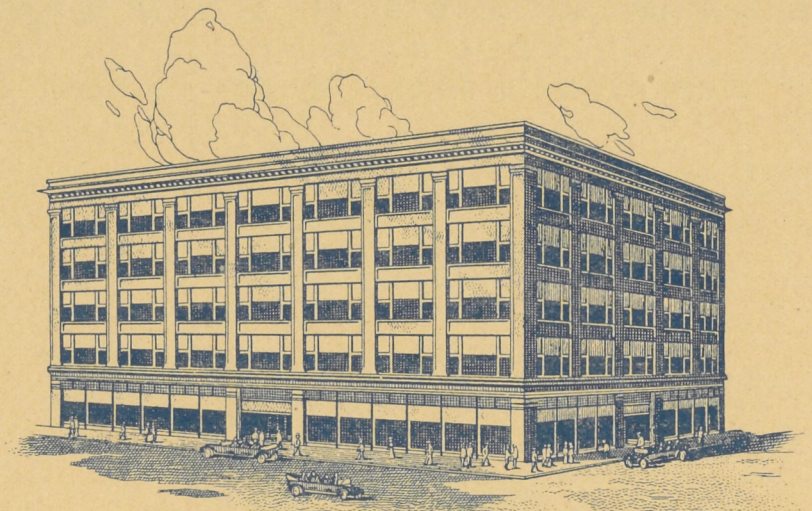
The J. F. CAIRNS Store



THE FINEST RETAIL STORE IN THE PROVINCE

THE J. F. CAIRNS STORE is the pioneer store in Saskatoon. Established in 1902. Today it is unequalled by any department store on the North American Continent, in a city the size of Saskatoon.

This store has grown and expanded because its guiding principle has always been to give the customer the most and the best for the money at all times and under all conditions, and to stand back of every transaction with a worth-while guarantee of satisfaction.

Introductory

THE PUBLISHERS take pleasure in presenting herewith the Fourteenth Annual Edition of Henderson's Saskatoon Directory, comprising the territory of the City proper and its Suburbs.

The Advertising Department presents the names of corporations, firms and individuals who have made Saskatoon the great city that it is, and who are a power in the financial, iudustrial and commercial world of Western Canada.

The Miscellaneous Section in the front part of the volume, contains statistics and information, much of which is not to be found elsewhere in print.

The value of the street section is often unappreciated by some who desire to find a certain house on a street unfamiliar to them to the extent it should be. By application of the following example, the location of any street number can be found expeditiously: Suppose 214 Avenue S South is wanted: refer to street section Avenue S South—glance down to 214, then to the nearest intersection to 214. It will be found that this number is on the east side of the street, five houses south of 21st Street, between 21st and 20th Streets.

The Classified Directory contains a complete alphabetically arranged list of all articles manufactured and sold in Saskatoon, which forms a most efficient wholesale and retail buyer's guide.

ADVERTISING SASKATOON

The Saskatoon Directory is placed in the Directory and Public Libraries throughout the United States and Canada, where it serves the public as a valuable book of reference and the city it represents as a splendid standing advertisement, for no other publication can convery such an idea of the city, its business intersects and all the various institutions and organizations. Few people realize what splendid publicity this affords the City and its industries.

1921 POPULATION OF SASKATOON, 31,428

These figures are an estimate only, based upon the number of names the Directory contains. **It is not a census.**

The Publishers desire to thank their patrons and the general public for the courtesy extended at all times to their representatives, and fully appreciate the confidence which the business and professional men of Saskatoon have always shown in their publications.

City of Saskatoon

Saskatoon is situated in Township 36, Range 5, west of the Third Meridian, on the banks of the South Saskatchewan River. It is the geographical and commercial centre of Central Saskatchewan. It is served by the Canadian National and Canadian Pacific Railways. As the site of the University and Agricultural College, Saskatoon is the educational headquarters of the Province.

The portion of the city on the east side of the river was originally known as East Saskatoon, but as the original villages grew and confusion between the post offices resulted, the name "East Saskatoon" was changed to Nutana, a word which is claimed by some to have had an Indian origin, meaning "first born," because it was the first settlement.

The name Saskatoon is derived from the Indian Cree name "Mis-sask-qua-too-mina," or "Mis-sask-a-too-mina," and sometimes contracted into "Saskatoomina." This word is plural. The singular is secured by dropping the final "a." The name was given by the the Indians to the berry which is found in such profusion in this vicinity and commonly referred to now as the "Saskatoon Berry," or "Saskatoons." According to a member of the original survey party, the Indians used to gather large quantities of these berries and walk through the camps selling them, crying which sounded to the members of the party like "Saskatoons, Saskatoons."

The city lies 216 miles north of the boundry between the United States and Canada, 140 miles from the western and 215 miles from the eastern boundary of the Province, so that its position is central. It is the only large city in the direct line between Winnipeg and Edmonton, being almost midway between the two, 450 miles northwest of Winnipeg and a little over 300 miles southeast of Edmonton.

Five bridges, the newest being a handsome arched structure of reinforced concrete, costing upwards of $500,000, cross the river within the city limits. Three of these bridges join the central portions of the city, two of them being for vehicular and pedestrian traffic, while the third carries the Canadian National Railway tracks and has a footpath alongside. The remaining two are railway bridges, one carrying the Canadian Pacific and the other the Canadian National Ry. rails. To the east of Saskatoon, the modern city resulting from the uniting of the villages of West Saskatoon, Nutana and Riversdale and their subsequent allied growth, and about a mile away lies the town of Sutherland, where are the C. P. R. roundhouse and car repair tracks. Sutherland is an incorporated town but is united to Saskatoon by street car tracks, as well as by rail, and this route is part of the regular city service.

The natural fertility of the surrounding district which is well settled and the unique position of Saskatoon as a distributing point are the main contributing factors to the city's prosperity and growth.

The townsite was surveyed in 1886, but the first railway did not come in until 1892. In 1899 Saskatoon consisted of a few houses on the east side of the river, while on the west side was the station house, the section foreman's residence, the Royal Northwest Mounted Police Barracks, a stone building, a hotel, and about six other houses and shacks. About this time property in what is now the central portion of the city sold for $45 for 75 feet. In 1901 Saskatoon was incorporated as a village, and in 1902 the first weekly newspaper was published bearing the title of "Saskatoon Phoenix." In 1903 the town charter was obtained. In 1906 Saskatoon became a city, the population being estimated at 5,000.

Following the formation of the Province of Saskatchewan in 1905, the locating of the capital and the university became live public questions. It was beleived at that time that owing to its central location, Saskatoon would be chosen as the capital, but eventually a compromise was reached whereby Regina became the seat of government and the Provincial University was placed at Saskatoon.

From 1906 onwards expansion was very rapid, becoming phenominal about 1912, until today Saskatoon stands a city of handsome buildings and well paved streets, along the principal ones of which electric cars now run. In the residential sections the boulevarding system obtains, giving the streets a very attractive appearance. The broad South Saskatchewan River, which flows through the middle of the city between high banks covered with an abundance of trees, shrubbery and other natural growth, besides providing an unlimited supply of purest water, passing through a modern filtration plant, lends a pleasing aspect, eliminating the tiresome monotony usually associated with centres of population established upon the prairies.

Not only is Saskatoon in the centre of Saskatchewan, but it is also in the centre of Western Canada. By placing a finger on the centre of any map of Western Canada one cannot avoid placing it on Saskatoon.

Saskatoon is the only city in Central Saskatchewan. There being no other large point near, the vast surrounding territory is wholly hers because she has the competitive railway facilities and distributing freight rates to control it absolutely as follows:

On carloads shipped in Saskatoon's wholesale ditributing territory extends to about 48,600 square miles, stretching far into Alberta—indeed, to within 82 miles east of Edmonton—and even now embracing over two hundred points on no fewer than 2,225 miles of operating railways—a distance only 27 miles shorter than that from Montreal to Calgary, per C. P. R.

On goods manufactured locally, such as flour, Saskatoon controls a distributing area of about 70,000 square miles, within which there are at present 300 bright young towns and villages.

Saskatoon has expended very large sums of money upon her schools, varying from $118,000 to $156,000 on each building. The citizens favor municipal ownership so far as it is deemed practicable and judicious, and now control their water, light, power, street car system, sewerage and hospitals.

The splendid facilities now operating to Saskatoon, both in the form of railways and natural advantages, are more than sufficiently important to win her distinction as a great national commercial centre. The three main lines of the three big Canadian railway companies are merely the framework upon which an intricate interthreading of branch lines is being woven as circumstances permit.

COLLEGE OF AGRICULTURE

The College of Agriculture is a part of the University and stands in the same relation to the University as does the College of Arts and Science. It has a number of buildings planned and equipped for carrying on its particular work and a staff of its own for the purpose of giving instruction especially in the technical subjects and elementary work in English, Mathematics and Sciences. Its laboratories and equipment are under certain limitations and restrictions, available to students in the other colleges of the University for the purpose of scientific research.

The aim of the College is to give the students under its care a good, practical training in the different technical subjects that bear upon the various phases of agriculture, such as animal husbandry, field husbandry, farm mechanics, farm engineering, dairying, horticulture, tree planting and others; to give them a good, liberal education in various other branches such as will enable them to adapt themselves readily, without great loss of time and energy, to new and varied conditions, and to fit them for their duties as good citizens.

System of Street Names and Numbering

Streets run east and west, Avenues run north and south.

North and west of River houses are numbered odd on west side of avenues and south side of streets; south and east of River houses are numbered odd on east side of avenues and north side of streets.

Streets are called East and West with Avenue A and Lorne Ave., which is a production of Avenue A across the River, as the dividing line. Avenues are called North and South with Twenty-second Street as the dividing line. In Nutana Aird Street is the dividing line.

The avenues west of Avenue A, with a few exceptions, are called by letters. Avenue W, a mile and a half, west of Avenue A being the western city limits

The avenues east of Avenue A to the River are called by numbers, with the street skirting the River called Spadina Crescent.

The avenues on the south and east sides of the River are generally called by names.

The streets on the south and east sides of the River are called by names; commencing at the southerly city limits, one mile north of the south city limits, however, they are generally numbered from 1st to 18th streets; this is not regular and there are some streets called by names.

North and west of the River the streets are named at the south city limit and northerly for a mile and a half where numbers are used, commencing with 11th Street numbers are used from there to the north city limit half a block north of 37th Street. In this district there are also exceptions where some streets are known by names as in the City Park District where names are used from Queen St. northward.

The system of house numbering adopted is the Decimal or Philadelphia System, an even hundred numbers being allotted to each block. The one hundred block north, south, east or west commencing at the dividing line above referred to.

In the business district a house number is alloted for each 12½ feet and in the residential district a number for each 25 feet.

The arrangement in street and avenue directory is in the following order: Alphabetical Streets and Avenues; Avenues A to Z; Numerical Avenues and Streets.

The arrangement by direction is East, West, South and North.

Where the odd and even numbers on all avenues or streets are separated, the east side on avenues will appear first and the south side will appear first on streets.

The Objects of the Association

The Association of North American Directory Publishers is composed of reputable City Directory Publishers, organized for the general advancement of the Directory Business. Any person, corporation or firm engaged in business as owner and publisher of a City Directory in the United States or Canada, who shall qualify as competent to gather information and compile a City Directory and furnish satisfactory references, is eligible to membership.

The objects of the Association are:

First. The advancement of the Directory business and the improvement of Directories by the interchange of ideas and the exchange of experienced employees.

Second. To provide protection to the public against fraudulent advertising schemes which operate under the name of Directories, and to drive unprincipled promotors of the same out of business.

Third. To provide permanent and profitable employment to competent, industrious and honest Directory canvassers and compilers.

Fourth. For the mutual protection and advancement of the established and prospective interests of all who may become members, by personal advice and assistance of members as may be mutually satisfactory, desirable or advisable, and by such other means as may, from time to time, be shown to be wise, proper and lawful.

$100.00 REWARD will be paid by the Association for the arrest and conviction of any person or persons engaged in publishing collectng or canvassing for any fraudulent or "fake" Directory.
